Professional Summary

Entry-level **Python Full Stack Developer** with a BCA degree and practical experience in **Python, Django, Flask, React.js, JavaScript, MySQL, REST APIs, and Git**. Experienced in developing full-stack web applications, database integration, and building responsive user interfaces. Seeking an opportunity to start a career as a **Software Engineer / Full Stack Developer** and contribute to innovative software solutions.

Technical Skills

- **Languages**: Python, JavaScript, HTML5, CSS
- **Frameworks & Libraries**: React.js, Tailwind CSS, Django, Flask, Node.js
- **Databases**: MySQL
- **Tools & Platforms**: Git, GitHub , VS Code

Projects

Weather Forecast web App July 2025

- Created a responsive weather application with HTML, CSS and ES6 JavaScript.
- Integrated OpenWeatherMap API to display real-time weather data.
- Features include city search, geolocation-based forecasts, Celsius/Fahrenheit toggle and 5-day predictions.
- Deployed live app: https://forecastweatherapp-chitresh-sens-projects.vercel.app/
- Source Code: https://github.com/Chitresh2414/New-repository

AI-Powered Chatbot System (React & Flask) January 2026

- Developed a full-stack AI chatbot using **React (Vite) and Flask**.
- Integrated **Gemini API** for **real-time AI** responses.
- Designed **REST APIs** (POST /api/chat, GET /api/history).
- Implemented **MySQL database** to store chat history securely.
- Used environment variables **(.env)** for security.
- Source Code: https://github.com/Chitresh2414/chatbot

Work Experience

Full Stack Developer Intern -- Cravita Technologies India Private Limited Aug 2025 – March 2026

- Developed frontend components using React.js and Tailwind CSS.
- Built backend APIs using Python (Flask & Django) and connected to MySQL.
- Used Git & GitHub for version control and collaboration

Education

Bachelor of Computer Applications (BCA) July 2021 – June 2025

Aryabhatta International College of Technical Education, Ajmer
